

The unprecedented spread of the malignant epidemic Covid 19 paralyzed the regular engagements of students in the rural villages as part of their total academic formation. However, STAND reached out to the villages and identified the most deserving and vulnerable people and prepared a list with the help of the leaders of the respective villages during June and July 2021. The academic year 2021-2022 witnessed an increased number of adopted villages to 32. The STAND Director and Coordinators visited the newly adopted villages Eduppal and Gandinagar and interacted with the people on 17.07.2021. The people expressed their happiness that the students would be going to their villages. They said that it would help the children much. (Details of villages are provided in Table No. I).

The Incubation Center which was activated in 2020-21 continued its activities during 2021-22 mainly with vermin-compost. The center promotes green and healthy environment. The Center produced and distributed over one tone of vermin-compost. The manure was used by the staff of the college and the management. Outsiders also availed the manure. Over 20 verities of herbal plants are being grown in pots and creepers over the green house. However, it was not successful due to lack of water in summer and strong wing. The Department of Botany used the Center as a demonstration site to the students. Even it was used as support material to take online classed during COVID-19. The students of VisCom took initiative to cover the Incubation Center and some activities of STAND.

STAND conducted a webinar for all the Contact Staff of Shift I and Shift II on 01.07.2021. The objective of this webinar was to discuss them how the STAND assignment for the current III UG and II PG students who could not do the assignment due to lockdown. Fr Principal appreciated the staff for their generosity and readiness to who have come forward to serve the student community. Fr Director traced the emergence of extension in University education. The Coordinators presented a briefing of how STAND operated. After the discussion it was decided that the students would be given an orientation separately for Shift I and Shift II students. They would be taken to the respective assigned villages for one-day visit accompanied by the Staff for an exposure followed by in-campus reflection on the visit. All the students would then produce an assignment individually and submit to the concerned staff. The Coordinators would collect the assignments from the Contact Staff. (Table No. II provides the details of Staff-in-Charges).

COVID-19 relief food materials worth Rs 1000/- were distributed to 639 families in all the 31 STAND operation villages covering a total of 1736 persons. (Mallakulam was excluded as they demanded help for every family in the village). The selection of the families was done by the SHGs based on prescribed criteria given by the Organizers of the Project. 08 villages were covered on 30.06.2021 and 07 villages on 02.07.2021. On 06.07.2021, 14 villages were covered. At the request of people from Eduppal and Gandhinagar food materials were distributed on 07.08.2021. The Jesuit scholastic students from the Community were very helpful for the distribution. STAND sincerely expresses its appreciation

and gratitude to the Jesuit Management Covid-19 Relief Committee and all who supported the project (The beneficiary list is given in Table No. III).

On the 25<sup>th</sup> September 2021, STAND conducted Online Orientation for Shift I and Shift II students. Shift II students had the programme from 9.30 to 11.15 am and Shift I students had the programme from 3.00 to 4.40 pm. Fr Principal addressed the students and reiterated the importance of STAND extension programme which moulds the students towards greater goal. The director of STAND traced the background of Extension in higher education starting with the report of the Kothari Commission 1966. STAND Coordinators made a PPT presentation on the operation of STAND Programme. Staff members and senior students shared their experiences and the transformative effect of STAND in the life and learning of the students which evoked confidence and basic understanding of STAND.

STAND organized a consultation meeting for the Staff-in-Charges on 11.01.2022 in the Conference Hall. Fr director after briefing the current situation explained the staff the need for organizing one-day village visits to enable the students to get a direct exposure to the naked experience of the rural life of the people. He also presented a model of activities to be undertaken by the students during their visits. After the feedback of the Staff it was agreed to follow the model which provides an analytical understanding of the villages in all its socio-economic, cultural and political dimensions.

Accordingly, a one-day village visit was arranged for both Shift I and Shift II final year students from 07.03.2022 to 12.03.2022. Besides interacting with the village people, students conducted social awareness rallies, sports activities, planted samplings, distributed Nilavembu kashayam, organized eye-checkup, gave awareness speeches and performed culturals on selected themes for rural folk and students. The department of STAND organized Social-Analysis programme for the final year MCA students on 08.04.2022 at 2.00pm in the MCA Seminar Hall. The resource persons were Dr. S. Aloysius Albert, Dept. of English and Dr. M. Johnson Gritto, Dept. of Botany (Detains are given in Table No. IV).

#### **One Day Visits**

Considering the existing favorable climate and the immense formative nature of the extension program STAND decided to organize one-day visit to all the classes. In consultation with the Staff-in-Charges a schedule was prepared. The students and Staff-in-Charges of STAND started their journey towards allotted village at 08.30 a.m. The students were given orientation talk at the village before spreading into groups of 6-7. The students interacted with the people, collected information about the village under four broad areas, namely political, social, religious, and Economic. Students presented their group reports at the end of the day. The visit of the STAND director enthused and motivated the student community.

The highlights of the village visits was conducting social awareness rallies, sports activities, planting saplings, distributing Nilvembu kashayam, organizing medical camps, giving awareness speeches and performing cultural programmes based on selected themes. The visit ended with group discussion with STAND coordinators. Total number of students visited the

villages are **1326**. The students were very much enthused to go to the villages and many voluntarily came forward to plan special activities for children in the villages Table No. V presents details of Activities done in the Villages).

Students were active even in the scorching sun and they waited with attractive prizes for the arrival of school children in the evening to conduct sports and games. People in many villages generously came forward to help the students with snacks and juices. Selvaputhakulam people provided tomato rice or all the 52 students. It is highly appreciated that some staff members including the HODs voluntarily participated as resource persons to the visit. They addressed the students, and shared their experiences.

#### **Students' Sharing:**

- ➤ We have learnt how people adjust themselves in the very small surrounding and live happily. The life is totally different from the city life.
- We have witnessed the commercialization of Agricultural land into commercial plots, as a result of Agricultural failure.
- We got to know about the culture of the villagers, which differs street to street, each holding a tradition of diverse cultural backgrounds, inherited across generations.
- Most of the villagers especially women who mostly dropped out of school after Class 5 expressed their inability to access higher education due to the absence of any high school in their vicinity.
  - All the village people rely on the Government buses which stop by their village only thrice a day. Many seek alternatives to attend to their business.
  - Students became aware of the way cattle are being managed and the related problems the villagers are facing in managing the cattle. It becomes a daily struggle for the people.
  - Students were able to realize that diligence leads to a life of self-confidence.
  - Students gained the attitude of sympathy and compassion and the practical need of helping others.
  - By their direct engagement with the people in the villages, students are able to realize their potentials.
  - The development of the village can be attained only if there is proper awareness about government schemes and policies. People think of the welfare of their village on the whole and not for an individual.

STAND Coordinators did an enormous work in contacting the link persons in each village and made arrangements for the proposed visits of the students within a short period. As a confidence building exercise, the Coordinators of STAND made a contact visit to all the villages in December 2021 after the ease of the lockdown restrictions due to Covid 19. To enable the students STAND prepared a booklet with most of the welfare schemes of the governments so that the village people can access them easily. The department wishes to record its deep

appreciation for the Management, Principal, the Staff-in-Charges and all those who have helped in any way for the implementation of extension in St Xavier's College.
